UET PORTFOLIO CASE STUDY

JHS IB/GES Curriculum

Inquiry-Based, Experiential Learning for Ghanaian Junior High School

Portfolio status: Original UET curriculum artifact

Audience: Grades 7–9 / Ages 12–15

Design territory: Curriculum Development • Instructional Design • Curriculum Integration

Portfolio Note

This case study presents UET's curriculum architecture as documented in the original artifact. It is a portfolio presentation of UET curriculum-design capability. It does not claim implementation at a named school, measured learner outcomes, accreditation, or formal authorization to deliver an IB programme.

The Design Challenge

How can a Ghanaian JHS curriculum preserve GES academic requirements while creating a more inquiry-driven, experiential and globally connected learning experience? The artifact addresses this by mapping GES subject areas to IB-style learning principles, ATL skills, interdisciplinary themes and applied projects.

Core Design Framework

Learner Profile	Inquirers, knowledgeable, thinkers, communicators, principled, open-minded, caring, risk-takers, balanced and reflective.
Learning approach	Inquiry-based and experiential, connected to Ghanaian culture, Pan-African heritage and global perspectives.
Assessment	GES examinations alongside portfolios, reflections, presentations, service projects, peer/self-assessment and inquiry exhibitions.

Subject Integration

Language & Literature	Comparative literature, debate, persuasive writing, creative writing and bilingual oral-history inquiry.	Communication • Critical thinking • Cultural awareness
Mathematics	Cocoa-farming mathematics, market economics, transport/budgeting and low-cost irrigation design.	Problem-solving • Research • Data
Integrated Science	Water purification, soil testing, renewable-energy investigations, field learning and local knowledge.	Inquiry • Collaboration • Research
Social Studies	Migration & identity, African Union debates and service-learning.	Global awareness • Collaboration • Civic responsibility
Creative Arts	Kente symmetry, traditional/digital music fusion, theatre using Ghanaian proverbs or Pan-African figures.	Creativity • Innovation • Expression
Career Technology / ICT	Coding/robotics, student microbusiness, food science and nutrition.	Technology • Entrepreneurship • Self-management
French	Role-play, storytelling, francophone-Africa pen-pal projects and culture days.	Multilingual • Intercultural competence

PE & Health	African games, wellness and links between exercise biology and health.	Balance • Personal care • Teamwork

TRANSDISCIPLINARY DESIGN

Six inquiry themes organize learning across subjects:

Identity & Belonging	Who am I? How do culture, history and family shape me?
Innovation & Change	How do science and technology transform societies?
Sustainability & Environment	How do we care for people and planet in Ghana and beyond?
Power & Justice	How do governments, laws and communities create fairness?
Communication & Expression	How do we share ideas across languages, arts and media?
Global Connections	How is Ghana linked to the wider world?

Assessment & Capstone Logic

The artifact combines exam preparation with performance-based evidence: portfolios, reflections, presentations, service projects, peer/self-assessment and a Year 9 inquiry exhibition based on community research and a proposed solution.

Potential Buyer Relevance

This artifact demonstrates UET's ability to design curriculum at the system level—connecting standards, pedagogy, interdisciplinary themes, cultural context, learner skills, projects and assessment. It is relevant to schools, education organizations and curriculum initiatives seeking a structured bridge between national requirements and international-style inquiry learning.

Evidence Boundary

Original UET curriculum artifact	Yes — presented as UET work.
GES-aligned design intent	Documented in the artifact.
IB-style approach	Documented as an IB-style integration; not represented as an authorized IB programme.
School implementation	Not claimed.
Measured learner outcomes	Not claimed.

UET Design Signature

Standards-aware • Inquiry-driven • Experiential • Interdisciplinary • Culturally grounded • Globally connected
