ICT PRIMARY SCHOOL CURRICULUM

Curriculum Architecture Map • Basic 1 → Basic 6

DESIGN LOGIC

BASIC 1	INTRODUCE
Focus: Computer parts • ICT uses • Safe device handling • Keyboard basics	Practice: Match parts • Practice start-up/shutdown • Simple typing

BASIC 2	BUILD FLUENCY
Focus: Daily ICT uses • Mouse skills • Typing/editing • Simple programs	Practice: Type names/words • Draw shapes • Discuss ICT at school/home

BASIC 3	USE & NAVIGATE
Focus: Files • Word processing • Internet awareness • Online safety	Practice: Create/save documents • Guided search • Discuss privacy risks

BASIC 4	CREATE & PARTICIPATE
Focus: Document editing • Multimedia • Presentations • Digital citizenship	Practice: Design posters • Summarize videos • Role-play ethical use

BASIC 5	CREATE WITH TECHNOLOGY
Focus: Coding • Collaboration • Research & validation	Practice: Build Scratch project • Research/present • Multimedia group project

BASIC 6	APPLY & SOLVE
Focus: Advanced multimedia • Real-world ICT • Excel • Secondary readiness	Practice: Create newsletter • Build budget • Present integrated project

THREADS ACROSS THE PATHWAY

Devices → applications → files → tools	Safety → privacy → copyright → ethics	Typing → documents → multimedia → coding	Tasks → projects → budgeting → real-life challenges

Portfolio takeaway: The value of this artifact is the progression itself: UET connects foundational computer literacy to increasingly independent, responsible, creative and applied use of technology across Basic 1–6.
